Subject: SSO Initial reporting - Hull MA WPCF - MA0101231 - 121 Nantasket Ave.

Good morning:

I am writing this email to provide notice for a Sanitary System Overflow [SSO] that occurred yesterday in Hull, as a result of the heavy rainfall event. Severe flooding occurred throughout the town during the late morning hours into mid-afternoon.

John Struzziery – Director of Wastewater Operations was out surveying many areas of the town during the weather event and came across the SSO location on Nantasket Avenue opposite Ocean Place Condominiums, 121 Nantasket Ave. This is a 16" AC sewer.

Manhole #20897 was observed surcharging from the manhole cover pick slots. The estimate of overflow was approximately 10 gpm. The time was approximately 1:25pm to 2:25pm on September 18, 2018. The estimated duration of the overflow was approximately one hour. This was during a period of heavy rainfall that resulted in multiple areas of street flooding in Town and ponding including the area of Nantasket Avenue between Park Ave and Rockland House Road, which was closed due to the flooded road from my transiting the area.

A complete report will be provided. Should you have any additional question or concerns, please contact me.

Sincerely,

Aram
